

I'm responsible for the iPhone and Google notebook given to me and if there is a loss or damage to these devices, I will be financially responsible to replace them at the current market price. I will do my best to take care of them. If any issues arise with either device I will notify Sun Radiology management immediately.

I have a fulltime employment with Sun Radiology. I clearly understand that this is the only full-time employment I will hold as long as I'm a full-time employee of Sun Radiology. During my full-time employment I will not be working anywhere else and dedicate all my efforts in increasing the referral volume.

Working for another employer in any shape or form will be a direct violation of company policy and subject to immediate termination, legal action and financial consequences including and not limited to any/all financial recoupment (salary/bonuses). This will be considered an unethical violation and subject to full prosecution under the law. Sun Radiology reserves the right to pursue all remedies.

I fully understand my responsibilities and will do my very best in this position.
